between 53 and 200 m². The penthouses have private pools on the top-floor terrace and some units have parking.

Thus offering a unique range of possibilities for a unique lifestyle, combining the refinement of the past with the contemporary of today.

The materials have been chosen with care in order to maintain the unique and original character of the building. Inside, the decorative elements have been preserved, stone and wood remain the main materials, allowing a harmonious relationship to be created between historic and contemporary elements. The project will be delivered for the second half of 2021.

The Avenidas Novas district is ideal for those who do not like to be in the hustle and bustle of the historic center, while still having quick and easy access to the whole city, a very flat area. Its name is linked to the expansion of Lisbon to the north, which took place between the end of the 19th century and the beginning of the 20th century, when wide and long avenues were. This is why access to the historic center is so quick and easy. However, the area is well served by public transport. It has interesting attractions within walking distance such as the Calouste Gulbenkian Foundation, Eduardo VII Park and, for shopping, El Corte Inglés, besides being well served by good restaurants and cafes. The Calouste Gulbenkian Foundation has performance halls and exhibition areas, a Modern Art Center, a Museum with a library and a restaurant / bar. The famous gardens that surround the foundation was designed in 1957, with an area of 9 hectares and forms a vast space for leisure and culture, with an exterior design characterized by hanging gardens and diverse flora. It is a very cool space, with a lot of greenery and full of flora and fauna, with rivers, terraces, paths between trees and even an amphitheater, in which during the hot summer months there are shows. In 2010, the building and the garden were considered a national monument. It is an ideal place to walk, rest and discover nature up close. Open all year round, it is a true oasis of tranquility for its visitors.
